

FOES OF DENEEN BACKING LOWDEN TO BE GOVERNOR

SAYS OLSON'S DEFEAT SHOWS
THE FORMER EXECUTIVE IS
LOSING STRENGTH.

WILL BE TEST OF FACTIONS

Frank Smith of Dwight May Get the
Support of the Previous
Chief of State.

Gubernatorial politics woke up yesterday on the republican side. Talk of Col. Frank O. Lowden was renewed among the anti-Deneen members of the party organization. The struggle over the governorship in 1916 and the senatorship in 1918, which has been an underlying issue in all the factional fighting since the democratic landslide in 1912 gave signs of breaking out before the mayoralty election is out of the way, says the political experts of the Chicago Herald.

The sudden accession of activities, conversational at least, followed the announcement of Col. Frank L. Smith of Dwight that he is in the running for the republican nomination for governor. He is the first to make formal avowal of his intentions.

Find Hope in Primaries.

Since the primaries the governorship, so far as Chicago goes, has been in a comatose state. The defeat of Judge Harry Olson on the fusion slate was one of the hardest defeats the Deneen forces have ever sustained, and the anti-Deneenites interpreted it as putting a damper on the governorship jockeying for some time. When Col. Smith chucked his hat into the ring Monday however, it was hailed as the formal start of the factional battle for control next year and it was followed by a resumption of boosting for Col. Lowden.

Mr. Lowden, who was one of the unsuccessful contestants in the famous "deadlock" republican convention of 1904 when Chas. S. Deneen was first nominated, has been considered a receptive candidate for the governorship ever since 1913 when his appearance at the state fair at Springfield during the "pow-down" period was accompanied by a "boom" from his friends.

Lowden Is Noncommittal.

Mr. Lowden has remained non-committal and has made no announcement as to whether he is even a probable or possible candidate.

For months, however, friends of Lowden have been quietly scouting downstate canvassing the sentiment. In Chicago the talk of Lowden as a candidate has been growing. The anti-Deneen faction in particular has been promoting it and some of the Deneen men themselves have indicated friendliness.

The Lowden movement, in fact, was one factor involved in the fusion movement. Underneath the factional battle over the mayoralty lurked the question of control of the party organization of 1916. When Judge Olson was picked as fusion candidate it was

LEECH APPOINTED TO IMPORTANT COMMITTEES.

(Special to the Telegraph.)
Springfield, Ill., March 10.—Speaker Shanahan today named his committees. Hon. William L. Leech of Amboy being appointed to membership on the following committees: Appropriations, Judiciary, Industrial Affairs, Judicial Appointments.

The appointment of Mr. Leech to membership on the appropriations committee is especially auspicious as it will enable him to work advantageously for suitable appropriations for the epileptic colony at Dixon.

Other appointments in the thirty-fifth district were: Devine—Efficiency and Economy (chairmanship), Judiciary, Judicial Department and Practices, Rules and Waterways. Brewer—Agriculture, Education, Farm Drainage, Military Affairs, Temperance.

Calls Senator Lawrence Sherman Next President

Dr. W.E. Taylor Starts Boom At
Ericsson Banquet, G.O.
P. Swedes Cheer

Moline, Ill., March 10.—A boom for Senator Lawrence Y. Sherman of Illinois for the presidency of the United States was unexpectedly sprung at the John Ericsson day banquet of the Swedish-American Republican League of Illinois last evening.

Dr. W. E. Taylor, soil expert, and former superintendent of the Western Hospital for the Insane at Watertown, once mayor of Monmouth, a local leader in the Republican party, and a state figure in Republican politics, preceding Senator Sherman as speaker, referred to the senator as the "Abraham Lincoln of the twentieth century and the next president of the United States."

Instantly the 500 people attending including 75 delegates from Cook county and 200 from other portions of the state, arose and cheered for fifteen minutes.

Seceders Welcomed Back.

The wiping out of grievances and disputes of three years' standing among members of the Swedish-American Republican league of Illinois marked its twenty-second annual convention here today. The harmony was absolute and today the men who left the party after the historical convention of 1912 are back in the fold.

ABOLITION OF HANGING ASKED BY GOVERNOR

EXECUTIVE OF ILLINOIS ASKS
REPEAL OF CAPITAL
PUNISHMENT.

SPECIAL MESSAGE TO ASSEMBLY

Governor Today Sent His Fifth Address To the Present Legislature.

(Associated Press)
Springfield, Ill., March 10.—Pleas for the passage of a law abolishing capital punishment in Illinois and for the appropriation of \$1,000 for the carrying on of the work of the State Commission on unemployment were made in two special messages sent to the legislature today by Gov. Dunne.

Including his regular biennial message, Gov. Dunne so far has sent five messages to this legislature. One asked for a law which would compel the lobbyists to register and another asked for the immediate passage of an appropriation to reimburse farmers and stock raisers who suffered financial loss through the slaughter of their cattle in the effort to stamp out the foot and mouth epidemic.

Gov. Dunne's message on capital punishment quotes statistics which tend to show that the states having a capital punishment law rank as a rule among the states having the greatest percentages of homicides.

"Imprisonment is equally effective, with opportunity of irrevocable mistake," says the message. "Thou shalt not kill" is the law of Christianity and should be the law of the twentieth century humanity.

"In this state of ours, 650 homicides were committed in 1910, after nearly a century's enforcement of this law, while in our neighboring state of Wisconsin where capital punishment has been abolished, the percentage of homicides has not been much over fifty per cent of those committed in Illinois.

"Such condign and repulsive punishment has therefore failed to have a more deterrent effect than imprisonment. Let us put to death, not the wretched convict, but the law which heretofore has taken his life without real advantage to society or to the state."

STRUCK FARMER ON HEAD WITH WEAPON

OSCAR HARPER MUST SERVE 30
DAYS IN JAIL FOR
ASSAULT.

Oscar Harper of Wyoming township was brought to this city on the noon train today by Deputy Sheriff Valentine and was arraigned in the county court this afternoon on the charge of assault with a deadly weapon. He waived examination and was sentenced to 30 days in the county jail by Judge John B. Crabtree.

The defendant has been employed on the Henry Knecht farm north of Pawpaw. He had been permitted to take one of the horses and buggies when he wished to drive to Pawpaw evenings. Last evening he wanted to use the rig and Mr. Knecht also had use for it and informed him that he could not take it. A wordy argument ensued and about this time Fay Rowe another hired man, appeared on the scene and attempted to quiet matters, but Harper went over to a nearby wagon, picked up a neck-yoke and dealt Rowe a blow on the head, felling him. A warrant was sworn out early this morning for the arrest of Harper and he was brought to this city.

COUNCIL CANVASSED THE VOTES

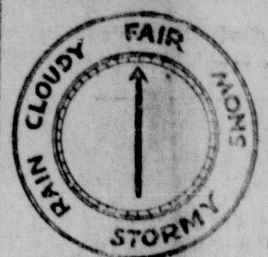

The city council met this morning at which time the votes polled at yesterday's primary election were canvassed, the official vote, as approved by the commissioners, will be found in a table elsewhere in this issue of the Telegraph.

Miss Olga Rice is reported on the sick list.

Another Pioneer Of Lee County Is Called Beyond

Mrs. Philip Miller Decendant
Of Famous Americans,
Is Dead

Mrs. Philip Miller passed away early this morning at her home, 310 W. Seventh street, at the age of 83 years, 1 month and 12 days, death resulting from old age. Funeral services will be held at the home Friday afternoon at 2 o'clock.

Marie Antoinette Holly, daughter of the late Mr. and Mrs. James N. Holly, pioneer settlers of Palmyra township, was born at Bellevue, Ohio, January 28, 1832, and it is of interest to her many friends that she was a descendant of Myles Standish and William Henry Harrison, two of the prominent figures in American history.

She came to Lee county with her parents when she was three and one-half years of age and her useful life has been spent in this community, aiding in and watching the growth of Dixon and vicinity from the Indian settlement to a thriving and prosperous city.

Mrs. Miller was a very intelligent woman with a constant interest in matters of public welfare; while her cheerful and kindly characteristics made her beloved by all who knew her. She was one of a family of eight children, of which but two sisters remain—Mrs. Julia Hooker of this city and Mrs. Jennie Echterbach of Sterling.

CHANCE FOR VOTERS TO KNOW CANDIDATES

TELEGRAPH WILL PUBLISH BIO-
GRAPHICAL SKETCHES OF
THE MEN.

The Telegraph will commence tomorrow to publish biographical sketches of the lives of the men who were nominated at yesterday's election for the offices of commissioner and mayor. The articles will be published as they are secured, and will not necessarily follow the order of the men receiving the highest vote.

The object in printing the articles is not an advertisement of the candidates, but enlightenment of the voters, and the Telegraph wishes to give as much information as possible to the voters in order to enable them to make a good choice at the polls.

One very noticeable feature of yesterday's primary election was that hundreds of voters did not vote for four commissioners. Many of them only voted for one commissioner and one mayoralty candidate. Others voted on two of the names in the commissioner list. A big portion of the entire vote only voted for three candidates for commissioner.

This all goes to show that a big share of the voters were unacquainted with four candidates for commissioner for whom they were willing to vote. They marked a cross in front of the names of the men they knew and liked, but went no further, fearing they might vote for some one they did not like.

It is necessary that the voting public know the kind of men who ask the support of the voters and the personal history of each candidate should be open for all to see. In this series of articles the Telegraph will not attempt to embellish history with praise or condemnation, but expects to put forward the plain facts of the lives of each of these men.

DRYS WILL HOLD MEETING FRIDAY P.M.

WOMEN WILL HEAR LECTURE
BY MRS. J. H. DANKIN AT
Y. M. C. A.

A meeting for women who are interested in making Dixon dry will be held at the Y. M. C. A. Friday, 2:30 p. m. The speaker will be Mrs. James H. Dankin of Jacksonville, Ill. Jacksonville was one of the first cities to vote under the woman suffrage act and rolled up a very large majority against the saloon. Mrs. Dankin organized the women of Jacksonville for that campaign and is said to be very largely responsible for the victory won.

GERMAN WAR SHIP LANDS AT NEWPORT TODAY

PRINZ EITEL FREDERICH, AUXILIARY CRUISER, MAY INTERNE IN U. S.

HAS MANY PRISONERS ABOARD

Captain and Crew of American Sailing Vessel May Be Among the Prisoners.

CAUSED SENSATION.
Washington, March 10.—The news of the sinking of the American ship William Frye on January 27, by the German auxiliary cruiser Prinz Eitel Frederick caused a sensation in Washington. The information was received by the state department from Customs Collector Hamilton, who transmitted a report of a conversation he had with Surgeon Kroneck of the Eitel.

(Associated Press)
The German auxiliary cruiser Prinz Eitel Frederick which has been cruising in South American waters, arrived at Newport, Va., today presumably for coal and supplies. The ship is said to be in need of repairs and may interne.

A report says that the Eitel Frederick has 326 French and Russian prisoners aboard.

The Prinz Eitel Frederick has a crew of 350 men and thirteen officers. Her prisoners were taken as prizes. Capt. Kiehn and wife and the crew of the American sailing ship William P. Frye, are said to be on board. It is said the Frye, which was carrying grain, was one of the ships sent to the bottom by the Prinz Eitel. The Frye sailed from Seattle Nov. 6, bound for Queenstown, but has not been heard from since the following day.

MAY HAVE BEEN CHASED.
There is an unconfirmed report that the German ship was chased to the mouth of the Chesapeake Bay by a British cruiser. One side of the Eitel is painted white and the other black.

The German cruiser has been given 24 hours to take coal and provisions but if repairs are needed a longer respite will be granted. However if it is decided to interne the vessel, the disposition of the prisoners will be a problem, but it is possible that they will be paroled.

Only three German ships of war now remain at large on the high seas outside of German water.

It is uncertain whether the William Frye was sunk by Eitel or another ship. Collector Hamilton made a full report of the sinking of the Frye to Washington, in which it was said she was sunk because it was alleged she was carrying contraband. The Frye was a steel vessel valued at \$280,000.

Aboard the Eitel are 200 seamen and officers from captured ships and fifty men, women and children from sunken liners. The Eitel's machinery is damaged.

Eighty Three U.S. Vessels Assembled For Mexico?

(Associated Press.)

Washington, D. C., March 10.—The Mexican Red Cross society has appealed to the American Red Cross through Secretary Bryan, for food for the starving people of Mexico City. Bryan stated that the state department will co-operate as far as possible in this relief.

Today's dispatches indicate that Obregon is still in control of the capital.

Significant Statement.

What is considered as a most significant statement has been issued by Secretary Daniels, who says: "Never before in the history of our navy has such a powerful fleet been assembled for active service, maneuvers and target practice with guns and torpedoes, as that staged at Guatanamo, Cuba, during the past two months, under command of

Rear Admiral Fletcher. The result of the operations of these 83 vessels cannot fail to be of great benefit to the navy."

Washington, March 10.—Secretary Bryan has warned Americans to leave Mexico City.

The order came from Secretary Bryan and was transmitted to the Brazilian minister in Mexico City on March 5, according to this dispatch.

General Obregon has withdrawn with his army from the Mexican capital, leaving scant if any protection for the city.

Villa's representative in Washington announces that the Zapatistas are again in control of the city but this has not been confirmed by any official dispatches.

Christians In Persia Are Innocent War Sufferers

(Associated Press.)

New York, March 10.—The horrors of the great war have now brought suffering and exile to more than 50,000 offenseless Christian people in Northwestern Persia; according to a statement given out by a newly organized Persian War Relief committee. The invasion of Persia and the capture by Turks and Kurds of the cities of Urumia, Tabriz and other cities which have been held by the Russian troops, drove the Assyrian and Armenian people, in fear of massacre, either out of the country into Russia, or into the American missionary compounds in Urumia and Tabriz. The flight from Urumia began at midnight on January 2, the people having only a few moments' notice of the approach of the Kurds and the need of flight. Rev. J. D. Barnard, a missionary of the Archbishop of Canterbury's mission of the Church of England, who left Urumia with the refugees in view

of the approach of the Turkish army, writes: "Practically the entire Christian population of the Urumia plain and the neighboring districts were in flight as we left. As far as the eye could reach in both directions was a constant stream of refugees, sometimes so dense that the road was blocked. It was a dreadful sight and one I never want to see again. Many old people and children died on the way."

Many to Russia.

Most of the refugees who fled to Russia made their way to the city of Tiflis. The long journey of the thousands of fleeing people was made in the depth of winter with no provision for the journey afoot through snow and rain and cold. One of the refugees, John Mooshie, a naturalized American citizen and superintendent of the day schools in the Urumia plain, writes from Tiflis:

Dementtown Doings

The way to take that hateful brown taste away is to take it with more water and less frequently.

Beware of poisonous face powders for at last they strike like an adder and sting like a bumble bee.

A rather indifferent name for an American ship anyway is "Evelyn." Think of the various disasters that befell Evelyn Thaw and Evelyn Arthur See.

Even after a man sees where he made a mistake he keeps right on making more.

A man's wisdom isn't as interesting as a woman's intuition.

It occurs to us that a chorus man fits too anxiously to get on the stage.

ARE INNOCENT WAR SUFFERERS

Continued from Page 1.

"During the ten days' journey we have witnessed a long chain of men, women and children from Urumia to Djoulfa, most of them walking in the cold and mud, without food or shelter. We have seen many women and children dead on the way, as they could not endure the cold and fatigue. The Christian inhabitants of Tabriz and Salmas have left, except those in Tabriz, who are protected by the American Consul."

Occupy School Buildings.

From Tabriz Rev. Frederick J. Jessup writes: "Everyone is seeking shelter with us, French, Belgian, Swede, Austrian, German, Turkish, Armenian and even Moslems. The Armenians are in great terror and everyone dreads the Kurds and their coming. We have been advised by our consul to withdraw from other properties and to concentrate here in the school compound. We have permission to receive the Europeans and our own people among the natives. For two days refugees have been coming in. All out school buildings are given over to them. All benches have been taken out and people are coming all day long bring-

ing rugs, provisions and bedding. Some refugees from Maragha have absolutely nothing. Some have walked the 50 or 60 miles in the winter cold and blizzard leaving everything, leading or carrying children."

The American Consul at Tabriz Gordon Paddock, cables:

"Appeal Red Cross and friends telegraph money aid, many thousands and destitute refugees."

The American Consul at Tiflis cables:

"Fifteen thousand Persian Christian refugees Caucasus. Local authorities doing best, but funds needed to return them home. Fourteen thousand refugees mission premises Urumia destitute. Fifty thousand dollars urgently needed. Telegraph funds Tabriz."

For over 75 years American Christians have carried on missionary work among these people in north western Persia, and for the last generation Anglican missionaries from England and Roman Catholic missionaries from France have worked among them. The disaster which has now fallen upon the people falls upon them all indiscriminately and includes many Moslems that have been subjected to the same hardships and loss as their Christian neighbors. Relief funds will be distributed wherever there is greatest need without regard to sect or nationality.

The American missionaries of northwestern Persia are all at their posts and have filled their compounds and buildings with refugees. A relief committee has been organized in Tabriz under the American consul and W. S. Vanneman, M. D. Rev. Robert M. Labaree of Tabriz has gone to Tiflis to work with a local committee of leading native Christians. Relief in Tiflis will be supervised by this committee, Mr. Labaree and the American consul.

None More Innocent.

Of all those throughout the world who are suffering on account of the war, none have suffered more or in greater innocence than these thousands of poor people who have been driven from their homes in the depth of winter and left homeless and destitute. They must be cared for in the cities to which they have fled and now that the Turks and Kurds are withdrawing from Persia, they must be returned to their destroyed homes and enabled to re-establish themselves. The need is urgent and appalling but the amount needed is small and will meet the pressing immediate need.

An American committee with Robert E. Speer, chairman, will be responsible for the prompt forwarding and distribution of the funds. Six thousands dollars have already been forwarded from the Red Cross and the Missionary societies and Dr. Vanneman has cabled acknowledging the receipt of this amount and stating that \$10,000 had already been expended and that relief would be required for several months. A foreign missionary board will forward to the committee any funds designated for "Persian War Relief."

WOMEN CAN HARDLY BELIEVE

How Mrs. Hurley Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Eldon, Mo. — "I was troubled with displacement, inflammation and female weakness. For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased every month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, and had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world. After I had tried most every female remedy without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself." — Mrs. S. T. HURLEY, Eldon, Missouri.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere.

It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, and nervous prostration, after all other means have failed. Why don't you try it? Lydia E. Pinkham Medicine Co., Lynn, Mass.

ABOLITION OF HANGING ASKED

(Continued from Page 1.)

Text of Message.

Following is the full text of the message asking that capital punishment be abolished in Illinois:

"Gentlemen of the Forty-Ninth General Assembly:

"I respectfully recommend the passage of a law abolishing capital punishment in the state of Illinois.

"The strongest if not the sole logical argument in favor of its retention is that it acts as a deterrent upon the criminal and is therefore protective to society against the commission of murder. If it proved to be such a deterrent, I would not urge its abolition. Experience in the United States does not sustain the contention. Capital punishment by law has been placed upon and has remained upon the statute books of nearly all the states of this nation since the inception of their governments. Up to the year 1913, only six states of the United States had abolished the death penalty. In 1913 the state of Washington abolished capital punishment.

"United States statistics of 1910 show that five of these states rank among the twenty states having the lowest per capita of homicides, all of these five states having a percentage of less than .08 in each 10,000 inhabitants. The other non-capital punishment state, Kansas, has the same percentage of homicides, 1.01 in 10,000 as have the states of Illinois, and Maryland, in both of which capital punishment has been enforced.

Highest Percentages.

"The twenty-one states of the union having the highest percentage of homicides, all of which have a greater percentage per capita than Illinois, Kansas and Maryland, have capital punishment in their criminal codes, and such punishment has been duly enforced.

"From the foregoing statement of statistics, it will be seen that the states having a capital punishment law, rank as a rule among the states having the greatest percentage of homicides, while those which have abolished capital punishment as a rule rank among those which have the lowest percentage of homicides.

"Such condign and repulsive punishment has therefore failed to have a more deterrent effect than imprisonment in the United States.

"Why, then, should capital punishment be longer retained in Illinois?"

In this state of ours, 651 homicides were committed in Illinois in 1910, after nearly a century's enforcement of this law, while in our neighboring state of Wisconsin where capital punishment has been abolished, the percentage of homicides has not been much over fifty per cent per capita of those committed in Illinois.

"The cold-blooded enforcement of this awful penalty under the forms of law is brutal and abhorrent and wrenches the decent sensibilities of every public official who, by any act or omission, is required by law to participate in its enforcement, including the jurymen who impose the penalty, the judge who sentences, the governor who refrains from pardoning, the sheriff who superintends the hanging and the miserable unknown tool who cuts the rope.

In Self-Defense.

"Taking human life is only justifiable in self-defense. Under the pretense of self-defense the people of the state of Illinois have been for years taking human life under forms of law. As defense of society against murder, taking human life has proved to be a failure. It has proved to be no defense.

"Imprisonment is equally effective, with less opportunity of irrevocable mistake. 'Thou shalt not kill' is the law of Christianity and should be the law of the twentieth century humanity.

"Let us then in the name of humanity, replace the punishment of death with the punishment of imprisonment following the precedent of more humane countries that have not suffered thereby.

"Let us put to death, not the wretched convict, but the law which has heretofore taken human life with out real advantage to society or the state.

"Respectfully submitted, (Signed) "E. F. DUNNE, Governor."

For Unemployed.

the expense of members of the commission on unemployment of Illinois and such other expenses as may be necessary in the carrying out of the work of the commission.

The last General Assembly authorized the governor to appoint a commission on unemployment to consist of nine members and to have authority to investigate the subject of unemployment in Illinois, together with the causes leading thereto, and the effect of such idleness upon the commonwealth. However, the legislature made no appropriation to pay the expenses of such a commission.

Lack of money with which to conduct such an investigation has embarrassed the governor in his attempts to obtain suitable persons to act as members of the commission, according to the message.

STERLING LIKES DIXON AS CAMP

MILITIAMEN ARE PLEASED WITH LOCATION OF THIS YEAR'S OUTING.

Sterling militiamen, as a rule, are pleased with the selection of Dixon as a camping ground this year, says the Gazette. It gives those who find it necessary to return home an opportunity of doing so and still not missing any of the encampment. The men have no excuse for not attending on the grounds of business, inasmuch as the interurban gives them ample opportunity of running home at any time they desire evenings after parade and getting back in time for reville next morning.

Good for Business.

The encampment at Dixon is also good for business in Sterling. During the last encampment Sterling business men were able to get several contracts while this year bidding will be even brisker with a number of Sterling wholesalers expecting to get their share of the contracts. Vast quantities of provisions of all kinds, potatoes and other vegetables, bread, butter, meats, etc., are required to supply the encampment during the four weeks and Sterling wholesalers and jobbers, being so close, will make a strenuous effort to get a few of the contracts, all of which are let by bid.

YOU'RE CONSTIPATED, BILIOUS!—CASCARETS

TONIGHT, CLEAN YOUR BOWELS AND END HEADACHES, COLDS, SOUR STOMACH.

Get a 10-cent box now.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets tonight; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. Don't forget the children—their little insides need a gentle cleansing, too.

WANT HIGHWAY LAWS AMENDED

EFFORT BEING MADE TO CHANGE LAWS SO THE BOARD WILL HAVE LESS POWER.

IS AGAINST ALL BUT MAKING

New Amendment Provides Against This—But For Stone or Gravel Roadways.

Springfield, Ill., Feb. 10.—The woman's suffrage law, which Senator Shaw aims to repeal in a bill introduced in the senate, is not the only progressive measure passed by the 48th general assembly which will be attacked in the present legislature.

The good roads statute and the fish and game conservation law which provide two of the most important reforms the state has known in a decade, are to have hard sledding according to present indications.

Speaker David E. Shanahan has a difficult task in trying to get men to fill the committees of the roads and bridges and fish and game. Interests trying to break down the administrative reforms are said to be anxious to control the committee. The result is that nearly every member of the house who wants to defend the laws is trying to get on the committees and those who fight them are equally anxious.

Opponents Fight Ties.

Opposition to the road law is said to have gone to the extreme of trying to block the re-appointment of Homer J. Tice, author of the law, as chairman of the road and bridge committee.

The feature of the road law which has brought opposition is that which gives to the state highway commission the power to select the kind of material which goes into the construction of the main through-route highways of the state. The commission has adopted a rule requiring concrete or brick construction except in a few poor southern counties.

Road commissioners, county supervisors and contractors in some portions of the state are said to be back of a strong campaign to take the power of the selection of materials away from the state board and put it into the hands of the local county officials.

Good roads advocates who supported the Tice law declare that if the amendment wins the state will have, instead of a unified system of main roads, comprising 20 per cent of the total mileage, a crazy-quilt type of construction.

Would Penalize Rutmaking.

Advocates of the amendment which would allow the use of stone or gravel propose that the law put a penalty on a person who runs ruts in a road during a wet season or a thawing period. Defenders of the law declare that this proposal is the strongest argument to let the law remain as it is. It is an admission, they declare, that stone and gravel roads can not stand hard usage at all periods of the year.

A fight by seine fishermen on the Illinois and other rivers of the state to remove the protection from bass, pike and other game fish has brought appointments to the fish and game committee of the house of representatives to the forefront. Game fishermen and sportsmen's clubs are opposing the proposed modification of the law and both sides of the controversy have sought to gain places on the fish and game committee for friends among the legislators.

The seine fishermen, whose industry gives an annual return mounting into the millions of dollars, declare the bass and other game fish eat the young fish of varieties they are permitted to catch in nets and rapidly are driving them out. They declare that the future of their industry demands removal or protection from the game fish. They are asking the legislators to let them use nets in removing the game fish.

Representatives of angler's clubs declare the commercial fishermen want permission to fish for game fish with nets in order to get the profits which high-priced bass and pike may bring. They say that all game fish would disappear from Illinois rivers if the use of nets were permitted for a few years.

TOURNEY TEAM IN PRACTICE CONTEST

The team from the City League which will represent Dixon in the International Bowling tournament at Peoria next week, on Tuesday night rolled a contest with a picked team from the "Y" on the Association alleys and made it three straight. The contest was arranged to give the tournament team a little practice on strange alleys. The high score of the evening, 211, was rolled by

SEEING AMERICA FIRST—NEW YORK'S SKYLINE.

When the American tourist has finished looking at the library of deca-

ed notables in a European cathedral he climbs 465 steps upward through a dusty tunnel and takes a look at the world from the top window of a spire, 370 feet above the ground. This is a great attraction in Europe and no cathedral would think of allowing this dizzy height for less than 25 cents admission. Outside of the Alps and the Eiffel tower the churches have a monopoly of height in Europe and they have made big dividends on every spire constructed.

However, the American traveler need not be deprived of the chance to scramble up 100 yards of precarious stairs and ladders this summer. He cannot see Paris from the spire of Notre Dame, but he can step into an elevator in any one of two dozen New York buildings and go twice as high for nothing.

New York City has a dozen buildings which are twice as high as Cologne spires which puncture the zenith more deeply than anything in house roofs.

Europe except the Eiffel tower. It has buildings 500 to 800 feet high, fitted up with all the comforts of the home, including large easy chairs on the fifty-third story and express elevators which make the entire trip in one minute without stopping even to whistle for signals. There are many remarkable views produced by man in various parts of the earth, the cost of reaching which varies from \$300 to \$3,000 for an American. But the most remarkable man-made view on earth can be obtained by expending the price of a ferry trip from Long Island to Hoboken, up North river. On this trip the tourist sees a five-mile mountain range built by the steel workers' and bricklayers' unions of America in the midst of which Singer Peak, Mt. Woolworth, the Dent du Metropolitan and the Sierra de City Hall loom aloft in weird and peculiar grandeur.

New York's artificial mountain peaks are not as beautiful as Europe's cathedral spires. But the view from them is far more superb. No man who has journeyed to the fifty-fifth story of a New York business building and has watched from there the ships of a hundred countries creaking in port over the sun-kissed bay can ever be impressed henceforth by sticking his head out of a church spire window and getting an eyeful of wind and

MAINE SHOWS HEAVY DEMOCRATIC LOSSES

On Basis of Municipal Elections State Is 25,000 Republican.

Bangor, Me., March 10.—The recent municipal elections held in seventeen Maine cities disclosed great Democratic losses. In the municipal and state elections in 1914 the Republicans carried only seven of these cities. In the elections just held they carried eleven cities and reduced the adverse majority in the cities where they did not win.

A comparison of the vote cast at these recent elections in Portland, Bangor, Auburn, Lewiston, Waterville and Augusta, the six largest cities in the state, and together representing more than one-sixth of the population of the state with the vote cast in the September election of 1914 shows a Republican gain of a trifle over 30 per cent and a Democratic loss of a trifle over 12 per cent. If these percentages obtain throughout the balance of the state a fair assumption, as the cities in Maine have recently been the Democratic strong holds, it would give to the Republicans in a state election a plurality over the Democrats of more than 25,000, and if the percentage of gain in Auburn and Lewiston, the two principal cities in the second congressional district, now represented by Congressman McGillicuddy, a Democrat, were applied to the balance of the district, a Republican member of congress would be elected by a substantial majority.

TERRE HAUTE MEN LASHED

Women Vilely Insulted at Election Declares Prosecutor Dailey.

Indianapolis, March 10.—That vile insults, lewd talk and brutal conduct were used by the indicted politicians to frighten respectable women who went to the polls in Terre Haute at the last election for the purpose of trying to obtain a clean election was charged by District Attorney Dailey in the federal court at the trial of Mayer Roberts and twenty-seven other Terre Haute men on the charge of conspiracy to commit election frauds.

There was a stir in the court room when Mr. Dailey denounced Judge Eli Redman of the Vigo County Circuit court as one who had received in his own hands part of the "slush fund" raised at the direction of Roberts. A break among the twenty-eight defendants was indicated when attorneys for the defense said that they would make two opening statements today.

DON'T "PLUMP" FOR ANYONE.

The coming election will be about seven hundred per cent warmer than the primary held yesterday, for there will be the "wet and dry" problem to be solved, besides the fight to the finish among the candidates for commissioner and mayor.

The forces for and against the "dry" Dixon will begin to get in their active work from now on, and candidates for commissioner will begin to battle desperately for a place among the lucky four.

Yesterday's primary vote was a surprise to many in some particulars, for some candidates who were expected to run well made poor showings, and others who were believed to be little known, made splendid runs. This is explainable in many ways, but the easiest answer is that some candidates campaigned early and late for weeks before the primaries, while others relied upon their good names and reputations to pull them through the first trial, on the principle that if they couldn't get through the primary without a lot of effort they would surely be defeated at the regular election. They will all work hard from today.

Four years ago at the primary one candidate got next to the highest vote out of twenty candidates. He was one of the best and most capable men on the list. It would seem a foregone conclusion that he would be elected, but he was defeated in the regular election the following month. So, you see, nothing is certain and a high vote does not insure victory, although of course it is desirable and shows support.

The candidates must now work to hold the strength they had yesterday and to gain more. Some of them may become desperate and a few may even resort to practices that are not just the fairest in the world. One trick of the desperate campaigner is to ask the voter to "plump" for him—that is, to vote for him and no one else. The selfish candidate will sometimes do this and tell the voter that his other friends will have so many votes that they do not need help. Of course, if enough of this talk is delivered and believed, other candidates may be seriously hurt by the withdrawal of support.

Pick out the four men you believe would make Dixon the best commissioner and the man you believe to be best fitted to give Dixon a clean, safe and sane, though still progressive, administration as mayor, and vote for all of them.

OLD OR YOUNG AT FORTY.

A physical director in the Young Men's Christian Association who has examined more than 2,000 city men in the past year says that he finds the type physically deteriorating. The average business man, he says, grows old long before his time. At forty he finds the business man has many of the symptoms of actual old age and often seems on the verge of a physical breakdown.

This is familiar talk. The difficulty is that so much of it is so nearly true. The encouraging part of it, on the other hand, is that few men need to be old at forty unless they choose.

In a large measure, it is an optional matter. If one keeps his nose to the grindstone of business, eats too much, indulges himself too freely, gets no physical exercise and takes his business cares home and to bed with him every night, he is pretty likely to be what the director says he is.

The suggestion that a man—or woman—is old at forty ought to be absurd. That it is not absurd is something of a reflection upon that portion of us who, because we are unwilling to take a little trouble, are actually bringing on age at forty.—Cleveland Plain Dealer.

ELECTION DAY IS IMPORTANT.

Mark April 20th off your calendar and label it "busy," for on that day you will have a date that you can find no legitimate excuse for breaking, if your health lasts and the country does not go to war. Your date will be with an imaginary personage known as Good Government, and the trysting place is the polling place in your precinct.

Of course we are just assuming that you are the kind of a person who would have a date with Good Government. We hope that we are not mistaken, although it is just possible a few of you will go far enough wrong to become allied with Bad Government. In such a case we can only hope that you will become disillusioned before election day and find out who is your best friend, Bad Government or Good Government.

Be sure and keep that date. If you fail, Good Government may become peeved and leave town.

ANY SACRIFICE DANGEROUS.

"Lenten styles" are now mentioned in the fashion notes. Yet, looking at the styles before Lent, it didn't seem as if they could abstain from much of anything with safety.—Exchange.

TALK ABOUT "TROUBLE."

The Kaiser thinks he has trouble; but he doesn't know one end of it. He never tried to run a country newspaper, or umpire a close game of baseball, or act as private secretary to a popular prima donna.—Philadelphia Record.

The Wise Guys are all admitting that the primary turned out just as they thought it would. They all say they picked the losers and winners, and the order of their standing. Most of them were discreet enough not to make their pre-election predictions out loud, however.

The primary only cleared the decks for action and we will witness some lively scrapping between now and election day, April 20th. Innocent bystanders had best beware of stray bullets.

A lot of fuss and expense, this primary business, without much accomplishment. It looks useless.

THE MODERN MAID.

I met a little maid whose glance, so winsome, made me glad; her lid, she said, was brought from France, her furs from Petrograd. "Wilt marry me?"

I asked; "sweet maid, you suit me to a T." Then all her molars she displayed; her laugh was large and free. "This marriage bunk," the maid replied, "gives me an oblong pain; what profits it to be a bride? What does a damsel gain? The housewife is a total loss, a drudge unpaid and meek; but my employers come across with fifteen bones each week. The wife must beg her tightwad man for every dime he sheds; a girl becomes an also ran the minute that she weds. Oh, cheerfully my way I jog, I find this old world nice; I'm independent as a hog that has been placed on ice. And if I wedded you, I fear, the change would make me ill; I'd have to work you for a year to get a dollar bill. My bank account is on the boom, I smile and dance and sing; oh, not for me the orange bloom, white gloves or wedding ring." So she went giggling on her way, and would not be a frau; I wonder if she'll be as gay some twenty years from now?

ling. Three brothers and two sisters preceded her to the great beyond.

Mrs. Miller was twice married; on August 15, 1854, she was married to Lewis J. Hays of Lyons, Iowa, who passed away May 9, 1856. One daughter, Mrs. Lydia Morrill, of this city was born to the union; on December 12, 1858, she was united in marriage to Philip Miller of Dixon, who passed away Oct. 6, 1907. Four children were born to Mr. and Mrs. Miller, one son, Ernest, dying in infancy. The surviving children are Mrs. Nina Grimes and Mrs. Jessie March of Dixon and E. S. Miller of Elk Grove, Cal. Ten grandchildren, five of whom reside in Dixon, the others in California, also survive and mourn her passing.

During the past three years Mrs. Miller has made her home with her daughter, Mrs. Grimes, where her declining years were made as happy and comfortable as possible, and where daily the loving interest of many friends was made manifest in the countless ways true love may be shown. Mrs. Miller's death has caused genuine sorrow among all who knew her, and their condolence is tendered to the bereaved ones.

CURRENT COMMENT

CURRENT COMMENT.

Portland Oregonian: Educational opinion in Boston rather inclines to favor the use of newspapers in the public schools. One teacher, Wm. T. Miller, would "set the pupils to clipping items and pictures on current topics." In this way, he thinks they might secure good practice in oral reading with a substantial gain in information. Another Boston teacher, Nathaniel C. Fowler, "would make newspaper reading a part of the curriculum of every school above the lower grades." Naturally if this plan were followed there should be a little discrimination among newspapers. Some of them can hardly be called proper reading for school-children, or anybody else, so far as that goes.

Monmouth Review: The split log drag has contributed more towards the economic maintenance of public highways than any implement of modern usage. It does not require special acts of legislature, bond issues, or expensive educational campaigns to make it available as usually precedes construction work. A drag can be built or purchased for twenty dollars or less and is easily operated by any one who can drive a team. We need more drags in this state.

Barry Record: The supreme court of Illinois has handed down a decision that Max Pfanschmidt, though he might be a murderer, could inherit his father and sister's fortune. Judge Carl E. Epler of Quincy has drawn up a bill, which if passed, will prevent murderers from inheriting their victim's money. State Senator McNay will introduce it in the senate and Hon. George H. Wilson in the house. It is a good law and will no doubt be passed without objection.

Canton Register: The painting out of beer signs that remain in this dry burg can hardly be a campaign issue. Who is there to object? They tantalize the thirsty quite as much as they offend the sight of those of whom thirst is entirely an unknown sensation.

THE MILLION-MYSTERY IS NOW UNRAVELLED

FINAL EPISODE OF GREAT PHOTO-PLAY WILL BE SEEN IN DIXON.

With the announcement that Ida Damon, a young St. Louis stenographer, has won the \$10,000 prize offered for a satisfactory solution and final episode in "The Million Dollar Mystery" the official progress of that huge and protracted picture-serial concludes and the final episode will be shown at the Princess theater tomorrow afternoon and evening.

"The Million Dollar Mystery" was a pictorial melodrama of the most vivid type, born on the pen of an author of national popularity, and accelerated in interest by publicity of country-wide character.

The supplying of the solution, in a way satisfactory to the judges, who were Mr. McGrath, Lloyd Loneragan, and "Mae Timee," was the basis of the contest. Answers were limited to 100 words and the "solution room" in the Thanhouser plant was packed, literally, with hundreds of thousands of answers.

In all, this picture melodrama covered more than nine miles of film. Over 200 newspapers used the story as a serial.

FOES OF DENEEN BACKING LOWDEN TO BE GOVERNOR

Continued from Page 1.

on the assumption that he would be little more than the leader of a forlorn hope. In the aftermath of the primaries it has developed that one of the arguments placed before Judge Olson was that he should run to head off the Lowden candidacy if for no other reason.

May Support Smith.

So far the Deneen camp has not settled upon its standard bearer. The general belief among the politicians of all factions however, is that the Deneen element will get behind Col. Smith. Then, if Col. Lowden comes out, the battle in Chicago will develop into one of survival of the fittest, the Deneen element behind Smith and the anti-Deneen men backing Lowden. This is expected to be the general line of cleavage, although there may be some variation.

Other candidates may put up their lightning rods when the situation begins to take definite shape. John G. Oglesby, former lieutenant governor, has been considered a possible candidate for the last two years. Andrew Russell, state treasurer, is also listed among the possibilities. Senator Law-

rence Y. Sherman's following has had a tentative slate for some time. It embraced: Sherman for senator in 1914 and for the presidency in 1916; Homer J. Tice of Greenview for speaker in 1915, and for governor in 1916.

Sherman Stand Doubtful.

The speakership part of this program was punctured and the governorship part of it may be revised according to some of the Lowden supporters, who affirm that Senator Sherman may not look with disfavor on Lowden's candidacy, although he has not committed himself as yet on this point.

Involved with the governorship too is the senatorship in 1918. Rumors have been current for months that Congressman Martin B. Madden is on a vague slate that contemplates Lowden for governor and Madden for senator. Other rumors are that Edward J. Brundage might be considered as a candidate for the senatorship in conjunction with the anti-Deneen program.

Deneen for Senator.

On the Deneen end the supposition is general that the fight for control of the party involves not only the governorship next year but a candidacy on the part of Mr. Deneen for the senatorship two years later.

Until the mayoralty election is disposed of efforts will be made to suppress the contest over party control for 1916 and 1918, but all the politicians are preparing for the fray the minute the municipal elections are over.

LADIES! Have you Placed Your Order for that

NEW SPRING SUIT OR COAT

If you would have that new Suit or Coat for it is time to place your order.

It is not so much a question of material as that of style, the tendency being more than ever a return to the early century fashions, however, the matter of materials for Spring and Summer has been definitely settled

Tailored costumes command the greatest attention because they are essential to the needs of the largest number of women, regardless of social station and covert cloth is going to be exceedingly popular.

Suits and Skirts of white serge are to be exceeding popular this season and a white serge dress suit with brown, blue, red or green collar and cuffs is the last word of Fashion.

Among the many popular styles for Spring wear is the Swinging Skirted Coat for which Covert Cloth has been chosen as the best for its construction, and while there are many ways for producing this coat, the single-breasted closing, self-notched collar, full length sleeves with turned back and button trimmed cuffs are among the interesting features.

If you wear a Forman Man Tailored Suit or coat you will have the satisfaction of being well dressed.

Factory made Suits and Coats will cost you nearly as much as the hand tailored and will not have the style, fit and finish.

My full line of Samples and Fashions for Spring and Summer is now in and I shall be very much pleased to have you call and see them.

ASK COUNTY AID FOR NEW BRIDGES

EAST GROVE WISHES TO ERECT NEW STRUCTURE—CONSIDER FINANCES.

Supervisor Jas. Buckley of Maytown introduced the proposition of restoring the bounty on crows, in this afternoon's session of the Lee County Board of Supervisors. Supervisor Buckley said that inasmuch as other counties nearby had put the bounty back on crows and the birds were very numerous in Lee county much to the detriment of the crops, he thought it advisable to take steps to have the number of birds cut down. He recommended a bounty of 5 cents a head on grown crows, 3 cents on young ones and 2 cents on eggs.

Supervisor Morris Cook added the suggestion that the bounty be restored on sparrows, saying that the sparrows carry disease, and drive off other birds.

Supervisor Buckley agreed to incorporate the sparrow bounty in his resolution which he will present tomorrow on crows.

At the meeting of the board of supervisors on Monday afternoon several reports were read and placed on file and petitions presented were referred to committees for them to consider and make report. The report of the grand jury was read as was also the report of the county home committee. They presented an invoice of the stock, machinery, grain, etc. at the home. The report showed that there were forty inmates confined there.

Two petitions were presented from East Grove township asking aid for the building of bridges in the township at a total cost each of \$850. The petition was referred to the road and bridge committee.

Several vacancies were reported on the election boards in different townships and these were filled. In the first precinct of Dixon, Leon Hart was named in place of Myron Annis; in the fourth precinct, C. G. Smith was named in place of Wm. Suggitt; in Viola township, August Gehant was named to fill a vacancy; in Harmon township, E. J. Watkins was named in place of Charles E. Wadsworth. All of the appointments were confirmed.

A committee was appointed by Chairman Buckaloo to confer with the county treasurer, county clerk and state's attorney, in regard to ascertaining the available fund to the credit of the county that could be used toward the erection of a new county home. Those appointed as members of this committee were Supervisors Edwards, Wagner and McCleary. They were instructed to make their report this afternoon.

Additional Road Funds.
At Wednesday morning's meeting a communication was read from the State Highway Commission regarding the re-allotment of state aid funds from counties that had not met the necessary requirements. By this re-allotment Lee county will be able to receive \$1,389 additional funds provided that they set apart a like sum from the general fund for road work. The communication was referred to the road and bridge committee for them to report on.

The bond of John E. Moyer of \$2,000, as supervisor of assessments was presented and was approved by the board. An adjournment was taken until 2 o'clock that the various committees would have an opportunity to pass on the bills and consider other work to be taken up.

Springfield, Mich. 10.—Late this afternoon Governor Dunne sent a third message to the legislature asking for an appropriation for teaching agricultural economics and for developing agricultural resources. The federal government has made appropriations for such purposes conditional upon like appropriations from the states.

Thirteen of the 35 chairmanships of standing committees were awarded to the democrats by Speaker Shanahan. Lee O'Neill Browne did not receive a chairmanship, but he was made a member of eight committees. McCormick, progressive, of Chicago, was made chairman of the Public Utilities and Transportation committee, but the republicans retained the chairmanship of the most important committees.

Dramatic Notes

AT THE OPERA HOUSE.

Otis Turner has achieved another tremendous artistic success in "Changed Lives" a three-reel modern war drama featuring Herbert Rawlinson and Anna Little. The photography and locations in the drama are in all cases beautiful and well selected; in some instances they show the hand of a master who is not satisfied with the expected but constantly is striving to outdo even himself. The war views excel in realism the scenes of warfare taken on the firing line in France and Flanders by the most daring camera men. The shell ing of a hospital and the scenes of destruction in a quarter of Antwerp exposed to the fire of hostile artillery are little short of marvelous. The story of the play surpasses anything of its kind in excitement and realism of action.

The comedy for tonight is another of those screaming Nestors entitled, "When His Lordship Proposes."

"MILLION DOLLAR MYSTERY."

Thursday afternoon and evening the Princess theater will show the 23rd and last episode of "The Million Dollar Mystery." Miss Ida Dameron, winner of the \$10,000 prize offered by the Thanhouser Film Co. for a solution of its great photoplay received her money from the hand of the mayor of St. Louis at the first showing of this episode in that city. In this last episode the threads of the story are woven together in such a way that each question is clearly solved. Owing to the popularity of

this serial it would be well to advise all those who can to come to the matinee and avoid the crowds at night.

FAMILY THEATRE.

Nearly everyone has ready Mary Jane Holmes' beautiful story of Lena Rivers, and on this evening they can see it produced at the Family theatre. The story is in five reels and follows the book closely, thus presenting each character true and lifelike. The book was wonderfully popular and the picture this evening will be equally as interesting. In addition to the above five-reel subject, the celebrated Hearst-Selig News Pictorial will be shown.

Faces Overwhelming Forces in West as Well as East.

London, March 10.—The Germans practically back on the East Prussian border at many points in North Poland, the siege of Ossowiec waning, the demonstration on Warsaw south of the Vistula a failure, the Russians in the ascendancy in the Carpathians and in Bukovina—this is the news that comes to London from Petrograd.

In all the reports there is no indication that the weakening of German initiative in the eastern zone of the war is a cloak to conceal another drive of Field Marshal Von Hindenburg towards Warsaw, such as he accomplished in the first weeks of February. The truth is that the military experts of London believe that facing the new British force of 1,250,000 in the west and the 2,000,000 of new troops sent by Russia into the east, the German military powers, for the moment, are unable to decide in which direction to throw their mobile forces. Weakening one zone, no matter which one, can only mean disaster.

MOTHER HUNTS DOUBLE OF PETERSON SUSPECT

AGED MRS. HATTIE BURKE ACCUSES MAN RESEMBLING SON OF AURORA MURDER.

Aurora, March 9.—Has Clarence Burke a double? This question is puzzling relatives and friends of the former convict and drug addict under arrest in connection with the mysterious murder of Miss Emma Peterson.

His aged mother and staunchest champion, Mrs. Hattie Burke of 14 South River street, believes her son has a double. She started out today to find the man.

Despite the police assertions that Burke's alibi has been shattered by the stories of Edward Utterback and others who located Burke within a block of the spot where the "slayer" waylaid and clubbed Miss Peterson to death, Mrs. Burke maintains her son is a victim of mistaken identity. She insists he had nothing whatever to do with the killing.

"With the aid of my friends I hope soon to be in a position to prove my son's innocence," she declares. "Clarence may have his faults but he is not a cold-blooded murderer."

"If I am not mistaken some of these people who say they saw him loitering near the scene of the murder were prompted by a desire to share in the big reward offered for the capture of the Peterson girl's slayer. Either that or they are mistaken in their man. I am inclined to the latter theory."

"I am satisfied that my boy has a double, with a retreat in or about Aurora. Let the police find that man and they will have the slayer of Miss Peterson and Jennie Miller."

Mrs. Burke has retained Attorney Charles Darling to assist her. Tonight Darling made a demand upon the police for Burke's release.

Chief Refuses Release.
"I couldn't think of releasing Burke at this time," said Chief of Police Michels. "He will have to do a whole lot of explaining before he is clear of this mess."

Attorney Darling later intimated he would appeal to the courts, if need be to obtain his client's freedom. It is likely he will make application for a writ of habeas corpus in Geneva the county seat, tomorrow.

Privately the police express doubt of ever bringing Burke to trial on the meager evidence they have. Chief Michels alone hopes to gather information on which to base the formal charges.

This evening he sought to induce an East Side school teacher to confront the suspect in an effort to connect Burke with the Miller case.

Fears for Life, Refuses.
Fearing for her life, the young woman refused to visit police headquarters, where Burke is being held. She declined to see the prisoner, even though Chief Michels promised not to disclose her identity.

When it was suggested that she might wear a mask she again demurred. She finally agreed to try to identify him tomorrow from a photograph.

Burke's tangled alibi became all the more snarled when Frederick Lindsay picked him out of a group as the man he had seen near the scene of the murder.

While the identification was being made Burke's little daughter Helen played in a room close by. She had been brought to the jail by Mrs. T. S. Simpson into whose charge she was given yesterday. Mrs. Simpson said she wished Burke to see "how his daughter looked all dressed up."

Your hair becomes light, wavy, fluffy, abundant and appears as soft as silk. Just try this—moisten the cloth with a little Danderine and draw carefully through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any druggist or toilet counter and just try it.

MORE BUSINESS FREEDOM, PLEA OF UNDERWOOD

SAYS FEDERAL OWNERSHIP OF RAILROADS SHOULD FOLLOW FAILURE OF RULES.

(Associated Press.)

New York, March 9.—In a speech on the railroad situation before the Sphinx club here tonight, Oscar W. Underwood, house majority leader in the last congress and now elected a senator from Alabama, declared that "if governmental regulation is unable to cope with the vexed problem that confronts us, the people will accept government ownership as the next step ahead."

Discussing the present system of regulating business Mr. Underwood said the time had come when the government should aid and assist the leaders of industry and finance.

"It is not enough for the government to permit these men to rise from the prostration which has overtaken them and their affairs," he continued. "We have reached the point on our way to social betterment where sound progressivism must recognize that the proper regulation of business requires that it must sometimes be helped and not always hindered; must be sometimes assisted and not forever stricken; that we must occasionally say 'you may' and not always 'you shall not.'"

Adequate provision for capital to maintain and extend the transportation system of the country is the problem confronting the government in its regulation of railroads, Mr. Underwood asserted. He added that our present system of regulation is breaking down, insofar as it has supervised the finances of the railroads with a view to allowing them properly to protect their securities that their credit may be maintained to aid in present and future development."

The regulation of railroads, Mr. Underwood said, should take into consideration the interests, not only of the railroads themselves and those directly interested as shippers, but of the entire country whose commercial prosperity is dependent upon adequate shipping facilities.

"We have undertaken the problem of government regulation of the railroads," he continued, "and the government will not turn back. Regulation of practices and rates is here to stay. But let us stand for wise and just regulation and not for ill considered and dangerous regulation. We must regulate so as to insure all necessary railroad facilities both for the present and for the future."

As the public in the end must pay the bill, it is primarily interested in the railroads securing the money needed for their maintenance and development at reasonable rates and equally interested in seeing that it is wisely expended.

"Revolutions never move backward. If government regulation is unable to cope with the vexed problem that confronts us, the people will accept government ownership as the next step ahead. It is therefore a matter of great importance that we should earnestly endeavor to reach a fair and reasonable solution of the problem of regulation at as early a day as possible."

After discussing the difficulties of dealing with the railroads through the varying jurisdictions of the state and federal governments, Mr. Underwood said:

"It cannot be denied that public control has reduced the rates that are charged for transportation and abolished unjust discrimination given to favored shippers. But the greater problem remains unsolved. Can the money be provided to expand and develop these great public works in a manner commensurate with the expanding needs of our commerce under the present system of public control?"

"If railway investments cannot be made attractive to capital is not the nation threatened with an inevitable breakdown of its transportation system?"

The Store That Sells Wooltex

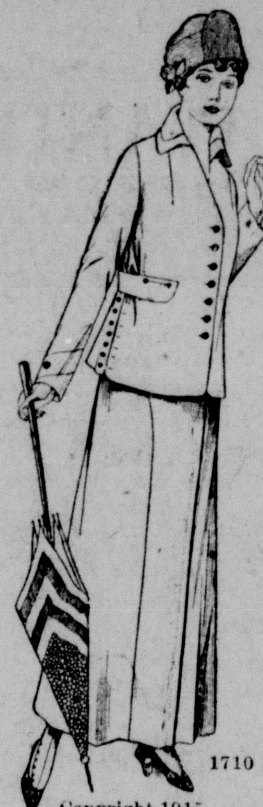

March Ladies' Home Journal shows this Wooltex Spring Suit at \$25

This handsome tailored suit is one of the Spring season's best models.

It is a semi-dress design adapted from a recently imported Domet model.

The jacket has the new flare below a partial belt on each side, where there is a slash with the open edges trimmed with buttons and button-holes. A slightly smaller waistline, is suggested by the belt. Officer's military collar is overlaid in the back with detachable collar of pique.

Skirt has a fashionable yoke and narrow front panel finished with buttons and button-holes at the top in front where skirt closes.

We show this suit in serge, poplin, gabardine or checks in a full range of colors and sizes.

This is only one of many handsome stylish Wooltex suits we have at \$25.

Their style correctness is approved by Madam Savarie, director of the Wooltex Fashion Bureau in Paris; every one is made of pure wool and silk materials; every one is splendidly tailored—suits that will give the utmost satisfaction to women who wish to be well-dressed at moderate cost.

Other Wooltex Suits at \$25 to \$35
Wooltex Coats at \$16.50 to \$25
Wooltex Skirts at \$5 to \$10

Come in today and see the suits illustrated and the other handsome Wooltex styles for Spring.

ARE YOUR
KIDNEYS WELL

MANY DIXON PEOPLE KNOW
IMPORTANCE OF HEALTHY
KIDNEYS.

The kidneys filter the blood. They work day and night. Well kidneys remove impurities. Weak kidneys allow impurities to multiply. No kidney ill should be neglected. There is possible danger in delay. If you have backache or urinary troubles, if you are nervous, dizzy or worn out, begin treating your kidneys at once.

Use a proven kidney remedy. None endorsed like Doan's Kidney Pills. Recommended by thousands. Proved by Dixon testimony.

W. Walford, Blacksmith, Peoria avenue, Dixon, says: "I used to have quite a lot of trouble with my back and kidneys. The kidney secretions were irregular in passage. My back ached, too. I used several boxes of Doan's Kidney Pills and the pains left my back and my kidneys became regular in action." (Statement given May 21st, 1912.)

NO TROUBLE SINCE. On January 21st 1915, Mr. Walford said: "I have had no kidney trouble at all for the past few years and I give the credit of my cure to Doan's Kidney Pills." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Walford had. Foster-Milburn Co., Props., Buffalo, N. Y.

SAGE TEA PUTS LIFE

AND COLOR IN HAIR

Don't stay gray! Sage Tea and Sulphur dyes hair so naturally that nobody can tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well-known druggist here, because it dyes the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

When your head aches you simply must have relief or you will go wild. It's needless to suffer when you can take a remedy like Dr. James' Headache Powders and relieve the pain and neuralgia at once. Send someone to the drug store now for a dime package of Dr. James' Headache Powders. Don't suffer! In a few moments you will feel fine—headache gone—no more neuralgia pain.

Get a 10 cent package of Dr. James' Headache Powders and don't suffer.

TURKS ARE BAD AS MARKSMEN

Allied Losses in Dardanelles Are Negligible.

STRAIT RISK IS OVERRATED

British Admiralty Says 23 Men Were Killed, 28 Wounded and 3 Are Missing, and They Are Mostly Marines—Russ Nearing Bosphorus—Biggest Armada.

London, March 10.—The admiralty has answered Turkish and German claims that several of the ships in the Anglo-French fleet at the Dardanelles had been badly damaged and that severe losses had been inflicted upon the attacking force, by a statement which says that up to March 4 23 men had been killed, 28 wounded and 3 more missing, most of these being marines.

The small extent of the British casualties is held to show that the marksmanship of the Turkish gunners has been poor, that the battle ships have outgunned the forts on almost every occasion and that even when the fighting begins at close quarters the sacrifice which the fleet will have to make in forcing the passage will not be nearly as great as was at first anticipated.

Bombardment Continues.

The bombardment of the strait continues but the results of the cannonading have not yet been reported to the admiralty although unofficial reports from Athens and Rome say that the operations took their usual course and that the Turkish defenses suffered further severe damage.

While the Anglo-French ships are hammering away at the Dardanelles the Russian Black sea fleet is now coming close enough to the Bosphorus to render material, if indirect, assistance in the subjugation of the Turkish capital. Compelled to protect themselves on both east and west the Turks seem to be sore beset.

Russ Fleet Nears Bosphorus.

The Russian fleet has now reached a point about 100 miles from the Black sea end of the Bosphorus. Today they were off Benderegh, forty miles west of Zunguldiak and were proceeding rapidly. The only damage sustained by the Russian ships in destroying the coal station at Zunguldiak was when a six inch shell struck the Almaz, a cruiser. Three sailors were wounded but the ship's machinery was not injured.

It is evident that the fleet at the Dardanelles is to be the largest ever assembled for hostile purposes. Already more than sixty ships are assembled there and a dispatch from Athens today announced that the battle ships Irresistible and Majestic, of 17,000 and 14,000 tons respectively, had reached the strait.

Three British Ships Sunk.

London, March 10.—The admiralty announces that the British steamers Tangistan, Blackwood and Princess Victoria have been sunk. Only one survivor of the Tangistan was saved. The crews of the others were saved. The Tangistan was of 3,738 tons and her crew numbered thirty-eight. The Blackwood was of 1,230 tons and carried a crew of seventeen. The Victoria, a ship, of 1,180 tons, carried thirty-four.

NO COMMENT FROM REDFIELD

Hopes Pennsylvania Manufacturers Will Not Compel More Details.

Washington, March 10.—Secretary Redfield declined to make any extended comment upon the statement given out by the Manufacturers' Association of Montgomery county, Pennsylvania, characterizing the report in business conditions there made to President Wilson by Secretary Redfield as "silly" and "impertinent." In brief Secretary Redfield's report was to the effect that the manufacturers did not know how to run their business and that this and not the tariff was the cause of their troubles.

"I hope they will not oblige me by their comments to publish fuller details," was the only comment that Mr. Redfield would make.

Socialists Vote Against Budget.

London, March 10.—The Prussian diet accepted the budget on third reading, says a Reuter message from Berlin. The Socialist members voted against the measure, and the Poles and Danes refrained from voting.

National Salmon Day, Friday, March 12th.

This day is being advertised by the Salmon Canneries to acquaint the public with the excellent qualities of canned salmon as an article of food. They claim that "canned salmon, weight for weight, is nearly double in food value either spring chicken or fresh eggs and about one-third higher than sirloin steak or sugar cured ham."

It varies in price from 15c to 30c per pound can. The difference is not so much in food value as in the color of meat and richness of the oil. Also the higher priced fish is a very flaky meat, blood red and rich in oils. The medium and lower grades are not so red, not so flaky, nor as rich in oils as the first grade. You will find them all an appetizing and palatable food. We will be pleased to furnish you with any grade of canned salmon.
